Creata dal sistema operativo KOMPAS, il modello AMIKO si distingue per originalità e versatilità.

I piani di lavoro sono proposti in molte forme: Corner Desk, Corner Special, sagomati a 120°, Wave, ergonomici e diritti, oltre alla scrivania direzionale Bat. Sono tutti realizzati in agglomerato ligneo dello spessore di mm 30 nobilitato con resine melaminiche in finitura cera nei colori Grigio, Noce e Faggio oltre alla versione "Colours of AMIKO" che troverete più avanti. Il perimetro dei piani è rifinito con un bordo multirigato in tinta, spessore 3 mm, con spigoli arrotondati.

Le strutture delle scrivanie sono realizzate utilizzando tubi di acciaio dello spessore di 2 mm e del diametro di 35 mm, piegati e verniciati con polveri epossidiche nel color alluminio. Sono disponibili in due versioni: gambe collegate con trave metallica telescopica e piedi singoli con piastra di fissaggio, entrambe sono dotate di piedini per la regolazione in altezza che va da cm 68 a 76 e di carter di finitura che mascherano i piedini.

Anche le cassettiere sono disponibili in più versioni: fissa con piedini e staffa di aggancio per trave, che si sostituisce ad una gamba scrivania; cassettiere allungo, adatte ad affiancare i piani corner e quelli a 120°, e cassettiere su ruote piroettanti che si adattano alle diverse situazioni. Tutte sono dotate di serratura centralizzata a chiusura simultanea e di guide in metallo con rulli in nylon. La loro struttura è realizzata con agglomerato ligneo da 18 mm mentre i top sono da 30 mm.

I contenitori, disponibili in due larghezze, 45 e 90 cm. - ed in quattro altezze - 72, 108, 141 e 210 cm.- sono tutti componibili; la libreria H.72 e L.90 con ante in legno, prevede la serratura come accessorio standard. La loro struttura è realizzata in agglomerato ligneo da 18 mm di spessore mentre i top ed i ripiani interni sono da 30 mm.

Tutti gli articoli, tranne le cassettiere, i portacopy ed i classificatori, sono forniti smontati e imballati in cartone triplo con protezioni perimetrali, corredati di ferramenta metallica ad applicazione rapida.
